

The National Lottery Community Fund has flexible roles that enable our people to give their best, broaden their skills and manage their career path. This job profile isn't intended to be an exhaustive list of your duties, rather it gives you an outline of what your role will involve. It will be for you to work with your colleagues to develop and shape your work in line with our strategic objectives and the objectives of your team.

Funding Manager

Our managers

As a manager at the Fund, whatever your specialism, you will proactively lead and manage either a team of people or an area of work, or both. You'll be accountable for high levels of performance, setting the standard for others to follow, putting our customers first and supporting our shared mind-set to achieve our strategic objectives.

Your people management skills will be brought to the fore and your ability to nurture, coach, inspire and empower people will be strong, supporting a constructive and positive working environment. Your project management skills will be equally solid, with an ability to delegate when necessary, and your decision-making will be informed by robust analysis and critical assessment. Through effective stakeholder engagement and management, you will deliver excellent customer service and use feedback to improve what we do whilst also drawing on your own learning and experience.

Your role

In this particular role, you'll coordinate the whole lifecycle of grant making (pre-application, assessment, decision making, grant management, and learning), placing the customer at the heart of what we do. Adapting to the local context for a defined geographical area and striving for continuous improvement. You will have strong attention to detail as you will be responsible for risk management, budget, decision-making and quality assurance activities associated with delivering a variety of funding initiatives.

Your people management and leadership and influencing skills will be strong, as you will support, coach and develop a team of people who may not all report directly to you. You will need to effectively engage stakeholders, encouraging connectivity and networks within and outside the Fund, and be equally confident working alongside both grassroots and national organisation. You will be expected to nurture existing relationships whilst developing new ones.

To do all this you will have a significant grant budget and a team of people.

Of course, you'll also need to work within the Fund's policies and procedures and the necessary legislation, and in a way that is in line with our vision and principles. If the role is based in Wales, or supports customers or colleagues in Wales, an understanding of Welsh language legislation and the Welsh Language Standards of the Fund is required.

Your experience

As a manager, you may have been promoted through our internal career paths having demonstrated your skills and leadership abilities or alternatively you may come from an external field. Either way, you'll need to demonstrate your experience and qualifications in these areas:

- Deep understanding of the communities we serve
- Demonstrable track record of turning strategic direction and vision into a deliverable reality working with and through your team(s)
- Experience of leading and managing a team who will be working in local areas whilst creating a connected culture
- Experience of managing complex budgets, cash flow, and processes
- Experience of establishing and implementing effective Quality Assurance measures, taking remedial action where required
